

Public Health and Safety

SansWrite is perfect for Public Health and Safety agencies that are faced with increasing workloads and diminishing budgets. More than a replacement for traditional paper inspections, SansWrite increases productivity, reduces operating expenses and provides on-demand access to critical data. Used by Public Health, Environmental Health, Environmental Protection and other regulatory agencies, SansWrite integrates seamlessly with existing information systems and offers a scalable inspection software solution at an affordable price.

- Supports State and Federal Government Compliance Inspections
- Provides Internet Access to Inspection Reports
- Includes Digital Picture and Electronic Signature Capabilities
- Offers On-site Printing and E-mail Delivery Options
- Integrates Seamlessly with Existing Information Systems

SansWrite is the “de facto standard” for transforming paper inspections into electronic inspections without the high cost of custom programming. To learn more, call today for a no-obligation web demonstration.

SansWrite Products

The SansWrite family of products offers any size organization or regulatory agency a scalable inspection software solution at an affordable price.

Standard Edition

Transform Paper Inspections into Electronic Inspections

SansWrite Standard Edition provides a simple way to computerize any traditional paper inspection. With Standard Edition, you can generate professional quality printouts that reflect your traditional paper forms while taking advantage of robust tools for accurately and efficiently capturing inspection findings.

Professional Edition

Create and Deliver Paperless Inspections

SansWrite Professional Edition is the advanced way to create and deliver paperless inspections. Using Professional Edition, you can e-mail electronic inspections as PDF documents and export data to a dBase compatible database.

Enterprise Edition

Create, Manage and Access Paperless Inspections

SansWrite Enterprise Edition is a complete software solution for creating, managing and accessing paperless inspections. With Enterprise Edition, your entire organization can view critical data and inspection results using a secure web application.

Recommended Hardware

SansWrite works with any Windows compatible Tablet PC or laptop computer; however, we recommend a TurnKey Inspection System™ for the ultimate on-site inspection solution.

- Touch Screen Input
- Daylight-readable Display
- Long-lasting Battery
- Rugged Engineering
- Lightweight Design
- 3 Year Warranty

Portable Office

Deliver Reports On-site with Confidence

The TurnKey Inspection System - Portable Office provides a self contained computer system for delivering inspection reports on-site. Its fully integrated carrying case allows for quick setup and convenient charging of the Panasonic Toughbook T4 laptop and Canon iP90 printer.

Mobile Workstation

Document and Print Inspections on the Move

The TurnKey Inspection System - Mobile Workstation enables inspection professionals to document and print inspections on the move. Using a Panasonic Toughbook 18 Tablet PC with a wireless connection to an Oneil microFlash 4t printer, generating on-site inspections has never been easier or more convenient.
