

SansWrite Version 5.2

System Requirements

Client Software

- PC with Pentium-class processor (Tablet PC with 1+Ghz recommended)
- LCD with Digitizer or Touchscreen
- Microsoft Windows 98 Second Edition or higher (Windows XP recommended)
- 128 MB of RAM (256 MB recommended)
- 165 MB of available hard-disk space
- CD-ROM drive
- Windows XP for Tablet PC operating system required for handwriting recognition and voice dictation
- Network Interface Card
- Adobe Acrobat Reader for viewing PDFs

Middleware

- Server with Pentium-class processor (dual processor recommended)
- 128 MB of RAM (256 MB Recommended) for Middleware Service
- 32 MB of RAM for each Concurrent Process
- 350 MB of hard disk required for installation (2 GB available hard disk space recommended)
- CD-ROM drive
- VGA or higher resolution monitor
- Microsoft Windows 2000 Server – SP4 (Microsoft Windows 2003 Server recommended)
- .NET Framework 1.1
- MDAC 2.7
- Network Interface Card
- TCP/IP port open for communication with Client and Service Manager (Configurable)
- Internet Connection

Web Portal

- Server with Pentium-class processor (dual processor recommended)
- 256 MB of RAM (512 MB recommended)
- 500 MB of available hard-disk space
- CD-ROM drive
- VGA or higher resolution monitor
- Microsoft Windows 2000 Server – SP4 (Microsoft Windows 2003 Server recommended)
- .NET Framework 1.1
- MDAC 2.7
- IIS 5.0 or higher (Version 6.0 recommended)
- Microsoft Internet Explorer 5.01 or higher
- Network Interface Card
- Internet Connection

Please Note: The Middleware and Web Portal can reside on the same physical server; however, the server must be configured with a dual processor for optimum performance.

The above listed system requirements represent the minimum requirements for SansWrite Version 5.2 Enterprise Edition. In addition, several recommendations are included to assist with maximizing performance. System requirements may vary based on the overall system configuration. It is recommended that MAP Software conduct a technology review and a needs assessment prior to the implementation of the SansWrite Middleware and Web Portal.
